

## Overview on national recommendations of COVID-19 vaccinations in EU and EU-associated countries

This list was assembled by the National Coordinators of each country represented in VACCELERATE on the national recommendations of different COVID-19 vaccinations in the EU and EU-associated countries.

Country	Used Vaccines	Heterologous schedule offered?	Comments
<b>Belgium</b>	AstraZeneca (AZ) (>55yoa) Comirnaty (>16yoa) Moderna (>18yoa)	<b>No</b>	J&J on hold. Decision planned for this week if AZ prime will be followed by AZ boost.
<b>Czech Republic</b>	AstraZeneca Comirnaty Moderna	No	AstraZeneca for all without possibility of choice.
<b>Cyprus</b>	AstraZeneca Comirnaty	No	AZ-AZ interval to be shortened to 8 weeks; Recommendation on AZ potentially revised after EMA report this week
<b>Denmark</b>	Comirnaty Moderna	<b>Yes</b> AZ prime, mRNA boost	Depending on EMA and US CDC this week, a decision on use of the J&J vaccine will be made.
<b>France</b>	AstraZeneca (>55yoa) Comirnaty Moderna	<b>Yes</b> AZ prime, mRNA boost (<55yoa, 12-week interval)	-
<b>Germany</b>	AstraZeneca (>60yoa) Comirnaty Johnson&Johnson Moderna	<b>Yes</b> AZ prime, mRNA boost (<60yoa, 12-week interval)	-
<b>Greece</b>	AstraZeneca (>30yoa) Comirnaty Moderna	No	-

This project has received funding from the European Union's Horizon 2020 research and innovation programme under grant agreement No 101037867

version 21/04/2021

<b>Hungary</b>	AstraZeneca Comirnaty Moderna Sinopharm Sputnik-V	No	AstraZeneca (12-week interval) Comirnaty (35-day interval) Moderna (3-week interval) Sinopharm (3-weeks interval) Sputnik-V (3-week interval) In pregnancy only mRNA-based vaccines
<b>Ireland</b>	AstraZeneca (>60yoa) Comirnaty Moderna	No	J&J on hold. For individuals with first dose AZ interval of second dose will be extended to 16 weeks while waiting for more clarity. Vaccine distribution: Comirnaty (75%), AZ (20%), Moderna (5%)
<b>Israel</b>	Comirnaty Israeli vaccine of the Israel Institute of Biological Research (IIBR) Moderna	No	-
<b>Italy</b>	AstraZeneca (preferably >60 yoa) Comirnaty Moderna	No	Use of JJ is currently suspended Subjects <60yoa first dose AZ will receive 2 <sup>nd</sup> dose AZ
<b>Lithuania</b>	AstraZeneca Comirnaty Moderna	No	No restrictions of AZ regarding age or sex
<b>Netherlands</b>	AstraZeneca (>60 yoa) Comirnaty Moderna	No	J&J on hold.
<b>Norway</b>	Comirnaty Moderna	No	AstraZeneca stopped until 10 <sup>th</sup> of May, AZ will likely re-enter vaccination programme. J&J on hold.
<b>Poland</b>	AstraZeneca Comirnaty J&J Moderna	No	No restrictions on AZ

<b>Portugal</b>	AstraZeneca (>60yoa) Comirnaty Moderna	No	-
<b>Serbia</b>	AstraZeneca (>18yoa) Comirnaty Sinofarm Sputnik V	No	Out of all administered vaccine doses, 71% were Sinofarm.
<b>Slovakia</b>	AstraZeneca Comirnaty Moderna	No	AZ no restrictions -risk of thromboembolic event is assessed on individual basis
<b>Spain</b>	AstraZeneca (60-69yoa) Comirnaty Moderna	Clinical trial assessing heterologous schedule started: <a href="https://www.reuters.com/business/healthcare-pharmaceuticals/spain-trial-mixing-covid-vaccines-after-restricting-astrazeneca-shot-2021-04-19/">https://www.reuters.com/business/healthcare-pharmaceuticals/spain-trial-mixing-covid-vaccines-after-restricting-astrazeneca-shot-2021-04-19/</a>	J&J is expected to start immediately for 70-79yoa following EMA's confirmation of overall benefits.
<b>Sweden</b>	AstraZeneca (>65yoa) Comirnaty Moderna	Most likely recommendation (not official yet) for individuals who received AZ prime to receive mRNA boost	-
<b>Switzerland</b>	Comirnaty Moderna	No	-
<b>Turkey</b>	Comirnaty Sinovac-China (CoronaVac)	No	-
